## Welcome aboard Mandurah Cruises floating classroom!

Open to primary & secondary schools, our **curriculum based Education Cruises** offer a unique educational experience to students, who will explore Mandurah and its unique and protected ecosystem via its magnificent waterways.

As we cruise, our education host and skipper will provide informative commentary and interactive activities for students.

## Education Cruise 2 - Heritage & Cultural Cruise

This education cruise offers students a chance to learn about Mandurah's rich and interesting history which was entwined around the estuary and waterways. This cruise ultimately allows students to experience Mandurah's history first hand as we cruise past the many sites of historical importance. Students will also experience magnificent scenery and well researched commentary that takes a historic look back in time to the old Mandurah.

## Education Cruise 1 – Mandurah & its Unique Marine World

This education cruise focuses on Mandurah's unique and protected ecosystem. Students will discover the area's extensive range of marine wildlife, the internationally recognised wetlands and learn about various factors effecting the ecosystem as well as sustainability practices protecting it. This cruise is also the ultimate way to explore Mandurah. Students will see and learn about important landmarks, Aboriginal history and culture and how the area has developed since the time of settlement.

Workbooks have been created appropriate to the education curriculum for primary years 1 -3 and 4 - 8 and are available to download and print for students to complete on the education cruise. Answers can be found within the information on our fact sheets and in our education cruise commentary and activities.
