# My Mandurah Animal Profile

Animal Name:

---

Where do I live? \_\_\_\_\_

---

---

What do I eat? \_\_\_\_\_

---

---

Draw me in the box below:

# Fish for the future

Complete the maze to help the fish find it's school!

**Circle the correct answer!**

A fish has:

Fins and tails

Hands and feet

Fingers and toes

**Fill in the missing word!**

Use these words to help: water gills

Fish live under \_\_\_\_\_ and come in different shapes, sizes and colours.

Fish breath using \_\_\_\_\_.

**Can you draw 2 different looking fish?**

# Common Bottlenose Dolphin

## True or False?

Dolphins breathe through their nose.

Answer: \_\_\_\_\_

## Did you know?

Dolphins can't just fall asleep in the water! Instead they rest half of their brain whilst they keep breathing and swimming.

## Fill in the blanks using the words provided to create a sentence!

dolphins      head      whistle      fish

In Mandurah we have Common Bottlenose \_\_\_\_\_.

Dolphins eat \_\_\_\_\_ and can live up to 30 years old.

They breath using a blowhole on the top of their \_\_\_\_\_.

Dolphins also call each other by name. They use a \_\_\_\_\_ to contact other dolphins.

## Habitat!

Dolphins live in groups called pods. This dolphin is lonely. Can you draw a habitat for her and a pod to join?

# Wetlands

Complete the word search!

## What am I?

I fly around Mandurah and I have a white body and black wings. I also have a very big bill. What am I?

I'm a \_\_\_\_\_.

I live in sand, mud and under rocks. I am blue in colour and have claws. What am I?

I am a Blue Swimmer Crab!

**Draw me in the box.**

# Sustainability

Always dispose of your rubbish correctly!

It is important to keep Western Australia's environment healthy. Sustainability is when people use the environment without damaging it for future generations.

**Fill in the table!**

**Write YES or NO in the empty boxes below.**

| What happened:  | Is it sustainable?<br>Yes or No? |
|---|----------------------------------|
| A fisherman catches 10 fish when the limit is 5.              |                                  |
| A girl throws her rubbish on the ground.                      |                                  |
| A man walks on the path provided instead of on the sand dune. |                                  |

**Circle the objects in the picture that are pollution- harmful to the environment.**
